

Titolo	Covid 19 Biological risks
Who is it for?	The course is aimed at employers (entrepreneurs, freelancers) who are unable to work agile or who are forced to be physically present in the workplace, with the risk of exposure to sources of biological contamination.
Objectives and purpose	The course prepares to avoid risks of contagion, contamination and in general to reduce exposure to biological risk, with particular attention to the new Covid19.
Regulations of reference	Legislative Decree 81/08 and subsequent amendments DECREE-LAW 19 May 2020, n. 34
Requirements of admission	None
Duration and modality	The course lasts 4 hours and can be learned in e-learning mode with LMS (Learning Management System) technology, capable of monitoring and certifying the performance, traceability and accomplishment of each user's educational activities.
